

MUHAMMED UVAIS T

Full-Stack MERN Developer

✉ muhammeduvais6060@gmail.com | ☎ +91 75940 60696 | [in LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Results-driven, self-taught Full-Stack MERN Developer with 3+ years of hands-on industry experience — including a full-time role at a software company — building scalable, production-ready web applications. Proficient in end-to-end development: architecting RESTful APIs, implementing real-time communication with Socket.io, integrating payment gateways, and deploying on AWS infrastructure. Demonstrates strong ownership, clean code practices, and a consistent track record of delivering complex features independently.

TECHNICAL SKILLS

Languages	HTML5, JavaScript (ES6+), TypeScript
Frontend	React.js, Redux, Context API, Tailwind CSS, Three.js, Bootstrap, CSS3
Backend	Node.js, Express.js, Socket.io, WebRTC, RESTful API Design
Databases	MongoDB, MySQL, PostgreSQL
Auth & API	JWT Authentication, OAuth, REST APIs
DevOps	AWS (EC2, S3), NGINX, Linux, Git, GitHub
Tools	Postman, Figma, VS Code
Principles	DSA, OOP, SOLID, Clean Architecture, MVC Pattern

EXPERIENCE

Full-Stack Developer

Offware Technologies · Calicut, Kerala

Sep 2023 – Jan 2026

- Progressed from intern to full-time developer; owned end-to-end feature development across multiple client-facing web applications.
- Designed and implemented scalable RESTful APIs with Node.js and Express.js, improving response times through query optimization and caching strategies.
- Integrated third-party services including payment gateways (Razorpay), cloud storage (AWS S3, Cloudinary), and real-time features (Socket.io).
- Deployed applications to AWS EC2 behind NGINX reverse proxy with SSL; managed environment configuration and server provisioning.
- Collaborated in an Agile team with designers and backend engineers; participated in code reviews and maintained clean, well-documented codebases.
- Contributed to proprietary, future-focused product development at Offware's internal R&D division; details are protected under a signed NDA.

Notable Client Projects: [ranjusjewels.in](#) (jewellery e-commerce, Tech Lead) · [formadesignbuild.in](#) (construction portfolio, Tech Lead) — both delivered end-to-end from architecture to production deployment.

Web Developer Intern

Offware Technologies · Calicut, Kerala

Mar 2023 – Sep 2023

- Selected for a competitive full-stack internship; contributed to both frontend and backend development from day one.
- Led frontend development for client projects including a Bangalore-based construction firm; designed UI/UX wireframes in Figma and delivered pixel-perfect, responsive React.js interfaces.
- Built visually immersive, animated UIs using Three.js, significantly improving user engagement metrics for the client's web presence.
- Developed reusable component libraries, reducing development time for subsequent features.

KEY PROJECTS

NEXTICK — Premium Watch E-Commerce Platform

[Node.js](#) · [Express.js](#) · [MongoDB](#) · [React.js](#) · [Razorpay](#) · [Cloudinary](#) · [JWT](#)

[View on GitHub](#)

- Architected a full-stack e-commerce platform with role-based access control (RBAC), OTP authentication, and secure password recovery flows.
- Built advanced product catalog features: search, multi-filter, sorting, reviews, and ratings — improving product discoverability.
- Engineered cart, wishlist, and checkout modules integrated with Razorpay for secure payments and a wallet system for refunds/credits.
- Developed an admin dashboard with analytics for sales, inventory, user management, and order lifecycle tracking.

FORMA DESIGN BUILD — Construction & Interior Design Portfolio Website

React.js · Node.js · Express.js · MongoDB · Three.js · Tailwind CSS · Figma

 [View on GitHub](#)

- Took **full ownership as Tech Lead** — from UI/UX design in Figma to final production deployment at [formadesignbuild.in](#) for a Bangalore-based construction and interior design firm.
- Designed and built an immersive company portfolio and project showcase with smooth 3D animations and scroll-driven interactions using Three.js, delivering a premium brand experience.
- Developed a dynamic project gallery, service pages, and client inquiry/contact system with backend form handling and email notification support.
- Implemented a CMS-style admin panel enabling the client to independently manage portfolio entries, project images, and site content without developer involvement.

RANJUS JEWELS — Jewellery E-Commerce Platform

React.js · Node.js · Express.js · MongoDB · JWT · Cloudinary · AWS

 [View on GitHub](#)

- Served as **Tech Lead and sole full-stack developer**; owned the entire product from system architecture to production deployment at [ranjusjewels.in](#).
- Designed and built a fully functional jewellery e-commerce store with product catalogue, category filtering, search, and detailed product pages.
- Implemented secure user authentication (JWT), customer account management, order tracking, and admin dashboard for inventory and order management.
- Deployed and maintained the live application on AWS EC2 with NGINX as reverse proxy — currently live and serving real customers.

EVENZO — Full-Stack Event Management Platform

React.js · Node.js · Express.js · MongoDB · Socket.io · Razorpay · Cloudinary

 [View on GitHub](#)

- Built a complete event management system with creation, discovery, booking, and attendee management modules.
- Implemented real-time notifications and live event updates using Socket.io, enabling a responsive user experience without page refresh.
- Integrated Razorpay for event ticket booking with payment verification, refund handling, and booking confirmation workflows.
- Secured all API routes using JWT-based authentication with refresh token support and protected user profile management.

EDUCATION

Full-Stack Web Development Program

2022 – 2023

Brototype, Calicut, Kerala

Higher Secondary Education (Science)

2019 – 2021

P P M H S S Kottukara
